

United to envision a better tomorrow! January 25, 2020, marks a **Global 5G Day of Action** with various events leading up, scheduled **throughout the Hawaiian islands** as part of this global uprising for **safe, bio-sensitive technology that is gentle to the planet.**

Scroll down for an **event near you** and join us! Events are listed in chronological order.

FREE PRESENTATION - MAUI

5G - Health and Environmental Effects

Hawaiian Islands Humpback Whale National Marine Sanctuary, Kihei

Wed, JAN 15th: 7-8:30pm

Health and environment consultant, Debra Greene, PhD, presents on the health and environmental effects of 5G and wireless radiation. Founder of KeepYourPower.org, Debra has been active in education on wireless radiation effects and involved in community organizing for safe technology in Hawaii for over a decade. This event is sponsored by the Ocean Mammal Institute. Free and open to the public.

FREE PRESENTATION - OAHU

5G & Wireless Radiation: How to Keep Safer in a Wireless World

Hawaii Kai

Sun, JAN 19th, 4-6pm

We are thrilled that **Dafna Tachover visiting from New York**, a leading expert and global advocate on wireless radiation health effects, is doing a one-time talk on Oahu! She is an attorney in New York and Israel with a technology background from her service in the Israeli Defense Forces as a Telecommunications and Computer Officer. She is the founder of WeAreTheEvidence.org, an advocacy organization for the protection of the rights of people injured by wireless radiation. She led a Supreme Court case in Israel to ban the use of Wi-Fi in schools, which led to the strictest limitations in the world on Wi-Fi in schools. Kuapa Isle Condo Club House, Park at the Basketball Court or other Guest parking
