

INTERNATIONAL MEETING ON RESPONDING TO GLOBAL SATELLITE DEPLOYMENT

Please join us for an International Meeting/Panel Discussion on ***Legal Strategies in Responding to the Global Satellite Deployment.***

On April 2nd, [5G Free California](#) will be hosting an international meeting featuring three leading attorneys working on the frontiers of the 5G Global Satellite and Network Challenge:

[Julian Gresser](#), [Jim Turner](#), and [Scott McCollough](#).

The focus of the discussion will be:

1. The forthcoming legal challenge of the Federal Communications Commission's "taking" of international space for the commercial and military advantage of a single country.
2. The newly forming international umbrella organization, the [Healthy Heavens Trust Initiative](#), to advocate for the public trust of humanity's common heritage - i.e. the heavens.
3. Ways that you can join in and use similar actions, arguments, and strategies in your respective country.

The meeting will begin at 7:00 pm PST (10:00 pm EST; 3:00 am UK; 1:00 pm Sydney, Australia)

** Please note that the first 30 minutes of the meeting will focus on local and statewide actions in California regarding the emergency order to accelerate broadband internet "upgrades" (presumably 4G/5G) in schools as well as the newly approved 1 million antennas on the ground that will connect with the satellites.*

The "international" part of the call will begin 30 minutes into the call.

Muting Etiquette

- We ask everyone to keep their line muted during the presentation to limit background noise (dogs barking, traffic noise, sirens, etc.)
- To ask a question during the Q&A time, unmute yourself, then mute again when you are finished speaking.
- On a computer, tablet, or smartphone, the mute button is in the lower left corner and looks like a microphone.
- On a telephone, pressing *6 will mute and unmute your line.
