

OUR WORLD, OUR SKY

WE INVITE CHILDREN TO HELP US CELEBRATE THE 5G GLOBAL DAY OF ACTION – PRESERVING OUR BEAUTIFUL SKIES!

Dear, Dear Children,

We want to hear from you and to see through your eyes.

*To help us celebrate the **5G Global Day of Action** on March 20th, 2021, we're holding an **Art Celebration for Children**. We invite you to do a drawing, a painting, create sand art on the beach, a chalk drawing on the pavement, write a poem, sing a song, choreograph a mime or a dance about the **Earth and Sky**.*

What do you love the most about the sky? How do you feel when you look up at the sky? What does the sky mean to you?

What would you say to the stars and to the planets? What are they telling us?

Imagine the most beautiful world that you can. What would it look like?

Should the sky be preserved for all living beings – birds, insects, animals, trees, plants and the Earth too? How will satellites harm the natural world?

Just send us a photo, video, or recording of your art, and we will post it on our website for all to see!!

Thank you, dear children...wonderful inheritors of our future.

With Love from the Team at,
Stop 5G International
team@stop5ginternational.org

NB: Names and countries of contributing artists will be shared along with the art as requested by child and parent.
