

# 5G, is it worth it?

- ◇ Are we losing our connection to one another and to the natural world?
- ◇ Would you like your children's teacher to be a robot?
- ◇ Are there valid health concerns with 5G? Thousands of scientists and experts say YES.
- ◇ 5G is not green, far from it. It is an energy guzzler which will significantly increase pollution.
- ◇ There are times when we must say **no** to that which does not serve – *Now is such a time.*

# 5G and the loss of our freedom

**If we don't want to be radiated, controlled and monitored 24/7, now is the time to Stop 5G.**

- ◇ 5G enables vaccine passports.
- ◇ 5G enables a cashless society.
- ◇ Who is viewing and profiting from our sensitive data? Are we heading towards a surveillance state?

If you don't say no, *who will?* Now is the time.

You can stop this before it is too late. Visit <https://stop5ginternational.org/5g-the-great-enabler/> to learn more and find out what we can do.
